

ALEXANDER ROSE

WEAVE COLLECTION 2021

WELCOME

Alexander Rose are recognised throughout the UK and Europe for the quality and design of our sustainable outdoor furniture products.

Furniture is our passion and we are committed to providing outstanding design, quality and customer service.

An aerial photograph of a golf course. The left side of the image shows a large, light-colored sand trap with visible tire tracks. A narrow strip of green grass separates the sand trap from the right side, which is a vast, vibrant green golf course fairway. The text is overlaid on the right side of the image.

WEAVE STORY

Alexander Rose commenced production of woven furniture in 2006 and our presence started in a new and expanding market with products meeting the customer desire for low maintenance, high quality outdoor furniture. It was immediately evident that we had much to offer the market, with our unique designs and high quality weaving.

In 2007 we invested in our own purpose built factory on the island of Cebu in the Philippines, in order to directly manage the production and delivery of our own quality furniture. Since that time, the woven furniture market dramatically increased and as a result, we moved to a larger factory to accommodate this greater demand.

Our in-house aluminium framing department skilfully fabricate and weld the intricate carcasses that are then powder coated in colours to match the Rose Fibre before weaving commences.

At our factory we implement best practice environmental policies; the synthetic weave and aluminium raw materials are 100% recyclable, and all wastage is reused to make small components on many of our products.

Every piece of furniture in our woven collection is hand-woven by our experienced craftsman who produce what we believe to be amongst the most beautiful woven furniture in the world today.

All of our weave has been expertly handcrafted by our team of highly skilled weavers in the Philippines. We ensure a high quality of life for our weavers by making sure their social and economic needs are met for them and their families. Its these welfare standards that encourage our workers to continue to work for us from generation to generation.

OCEAN

(7mm Flat Weave)

Inspired by the sea, the Ocean range will bring a tropical seaside touch to your outdoor living space.

This range embodies the innovation of Alexander Rose, continuing to challenge the boundaries of design and functionality.

The Ocean range is woven in a beautiful 'V' and open weave pattern using 7mm & 12mm flat triple tone bronze Rose Fibres. Ocean cushions are made using oatmeal olefin fabric and come with a 2 year warranty.

OCEAN PEARL

(7mm Flat Weave)

Alexander Rose introduced the Ocean Pearl to celebrate 10 years of the established Ocean collection.

The mixed tones of the Pearl coloured Rose Fibres gives a lighter option to the Ocean Bronze, whilst keeping the iconic designs of the original Ocean Bronze range. Ocean Pearl is woven in a 7mm flat Rose Fibre in a traditional basket style pattern.

Ocean Pearl cushions are made using pearl olefin fabric and come with a 2 year warranty.

MONTE CARLO

(3mm Round Weave)

Our Monte Carlo furniture is manufactured at our factory in Cebu, by highly skilled weavers.

The 3mm textured synthetic rattan gives a natural feel and the charcoal grey cushions complement the mid grey weave. Monte Carlo cushions are made using charcoal olefin fabric and come with a 2 year warranty.

ACCESSORIES

Enhance your outdoor space with our extensive range of accessories; from colourful scatter cushions and parasols to protective furniture covers and treatments.

We offer a selection of weather resistant storage bags for your cushions, which we recommend you use to protect them from the elements.

For personalising your timber furniture, we offer an engraving service directly onto the timber or a choice of brass or stainless steel plaques.

For full warranty policy on our range of accessories please refer to our website.

HARDWOOD PARASOLS

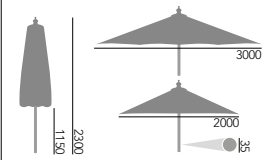

Alexander Rose hardwood parasols are operated using a pulley and locking pin system. Simply pull the rope down to raise your parasol up to the desired height and place the brass pin in one of the pole holes to secure. To lower the parasol remove the

locking pin and slowly let the rope pass through your hands until the canopy is folded. We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

LUXE HARDWOOD PARASOLS

A twist on our classic hardwood parasol, the Luxe hardwood parasol is a new edition for 2021. With the same trusted pulley and locking pin system, what's different about this parasol is the addition of faux leather patches covering the canopy's tips to

reinforce the material. The thickness of the parasol's pole has been increased, making for an all-round sturdier parasol. We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

CANTILEVER PARASOLS

Our elegant cantilever parasols can be positioned to provide maximum shade. They appear to float above the furniture and can be manually rotated to follow the sun. They are free standing, which allows you to position the furniture underneath rather than around a central pole as with conventional designs. The crank mechanism enables effortless use.

UH35

The UH35 is an 8 spoke 3.5m cantilever parasol. As with the UHP, its easy crank mechanism makes raising and lowering one smooth movement. The canopy can be adjusted into 7 positions to give maximum shade from the sun. Use with our UHGB90 granite base. The UH35 comes with a free night cover.

The parasols are made using lightweight durable polyester fabric which is water resistant and easy to clean. To clean your parasol we advise that the fabric is kept attached to the frame. For best results use a soft brush or broom and warm soapy water. For more stubborn stains the canopy can be removed and washed at 30°C. Once washed it is important to put the canopy back on the frame to dry.

	GB11	GB20	GB30	7960	UHGB50	UHGB90	NC-SMALL	NC-LARGE	NC35	FC17
UH35						●			●	

CANTILEVER PARASOLS

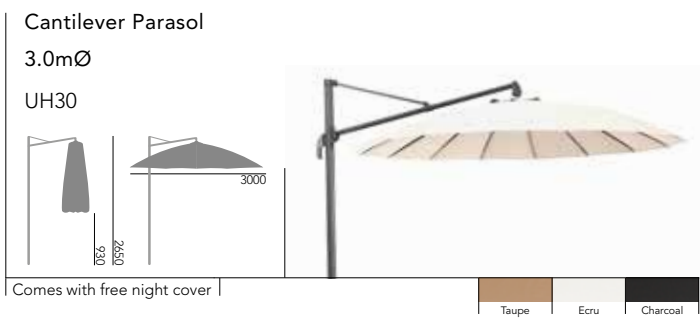

UHP

The UHP parasol is easy to operate with the simple handle and lock mechanism. To rotate the parasol simply unlock the handle and move into the desired position, and then lock the handle to secure. The UHP can be easily bolted to an Alexander Rose UHGB50 granite base. To be used with a FC17 cover.

UH30

The UH30 is an 18 spoke curved 3.0m cantilever parasol. As with the UHP it is easy to raise and lower the canopy with a crank handle mechanism. The canopy can be adjusted into 7 positions to give maximum shade from the sun. The parasol also has a foot operated pedal for 360° rotation. For use with the UHGB90 granite base. Comes with a night cover.

CANTILEVER PARASOLS

GRANITE BASES

We recommend using the GB11 (11kg) for a four seater set and GB20 (20kg) or GB30 (30kg) for six seater sets or more.

COMPOSITE BASE

The composite base is for use with parasols being used through the centre of a table.

It has a locking handle on the stem of the base to secure the parasol in place, minimising movement.

CANTILEVER BASE 50KG

The UHGB50 base is designed to be used with the UHP range of cantilever parasols.

It has convenient small wheels, allowing the base to be moved along a flat surface easily.

CANTILEVER BASE 90KG

The UHGB90 base has been designed to be used with the UH35 and UH30.

The UHGB90 has locking wheels to secure the parasol and prevent any movement.

CUSHION STORAGE BAGS

CUSHION STORAGE BAGS

Our cushion bags come in three sizes; small, medium and large, to accommodate your set of cushions. All of our bags are weather resistant. We recommend storing the cushions in the bag in a dry place when not required.

SMALL CUSHION BAG

The small cushion bag is designed for furniture cushions, it will also hold several scatter cushions.

FURNITURE COVERS

Our covers are breathable and protect against the build up of dirt and ensure less furniture maintenance is required. The covers come with ties and cords for securing to the furniture. It may be necessary to place an object such as a bucket between the furniture and the cover. This will reduce the amount of sagging and will help the airflow around the furniture. This will prevent the chance of rotting occurring.

MAINTENANCE

WEAVE MAINTENANCE

We recommend that woven furniture is cleaned at least once a year. It is important to use a non-foaming cleaner on woven furniture, as a foaming product will leave residues in the gaps in between the weave which will then attract dirt.

A pressure hose on a wide spray setting is acceptable to use on woven chairs at a distance of approximately one metre from the product. Tables should be cleaned carefully with a sponge and a cleaning agent. Follow the instructions below:

- Apply lukewarm water with a soft cloth or sponge.
- Brush the furniture clean with a soft scrubbing pad.
- Rinse furniture well with clean water.

Scratch marks or abrasion to the edges of the fibre can be repaired by very briefly and carefully applying heat (i.e. a hair dryer) to the affected area and rubbing along the length of the fibre with a piece of hard cardboard to restore a smooth edge. To clean the table top glass we suggest the use of any household glass or window cleaner.

ROSE FIBRES

Alexander Rose woven furniture is made from only the highest quality synthetic man-made fibres available, Rose fibres (excluding Monte Carlo). Rose fibres are UV and fully weather resistant, and also insensitive to differences in temperature. The Rose fibres are produced by Viro, and are tested rigorously to ensure they meet our exacting standards.

The structure of all our woven furniture is made from fully welded, powder coated aluminium frames. The aluminium tubes we use have a wall thickness of 1.5mm to provide maximum strength and a lightweight frame. Once a frame has been covered in its woven skin the furniture becomes even stronger. The aluminium frames are electrostatically powder coated to prevent them from oxidisation, and the finish is invisible once it has been woven over. Our weavers are highly skilled and are often 2nd and 3rd generation weavers. They use their traditional experience with natural materials and apply their skills to using the modern man-made wickers.

CUSHIONS CLEANING TIPS

1. Brush off any loose dirt.
2. Prepare a cleaning solution of 1:16 mild detergent to lukewarm water.
3. Use a sponge or a soft bristle brush to clean.
4. Allow cleaning solution to soak into the fabric.
5. Rinse thoroughly to remove all soap residue.
6. Allow fabric to air dry.

Do not dry clean, iron, steam iron or tumble dry cushions. Do not use bleach or strong detergents.
