Accessories

Materials

We choose from only the highest quality materials ensuring our products stay at their best through years of use.

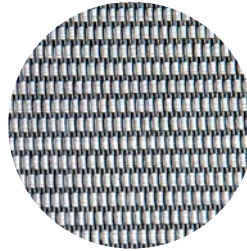

Teak

(Tectona grandis)

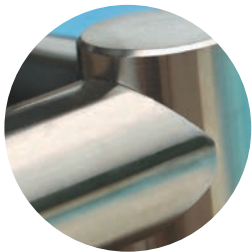

Teak is the perfect hardwood when it comes to outdoor furniture. It has a beautifully smooth texture and a striped grain. Its naturally high oil content gives it a formidable resistance to extreme weather

Rose-Sling

Rose-Sling is a tough synthetic fabric made of PVC coated polyester. It has specifically formulated yarns that withstand UV fading, mildew and severe weather conditions. The Rose-Slings come in a graphite colour

Stainless Steel

We use grade 304 stainless steel tubular sections that are chemically pickled and naturally passivated for weather protection. The steel contains chromium to provide a passive film of chromium oxide that prevents surface corrosion.

Webbing

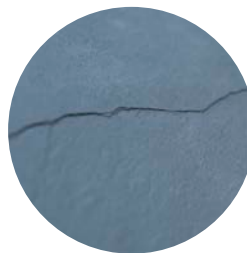

The webbing is made in 24mm anthracite coloured polypropylene. The webbing is extremely durable and weather resistant.

HPL

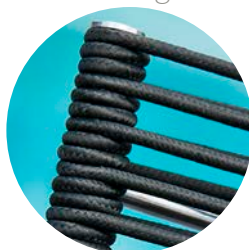

High Pressure Laminate (HPL) is produced by combining thermosetting resin with kraft paper under high temperatures. It is an extremely tough and weather resistant material.

Slate

Constructed in Glass Reinforced Concrete (GRC), these slate effect tops are used on our Avant and Avant Classic ranges as an alternative to our Teak tops.

String

The string is used in the Avant stacking armchair and has a 5mm solid HDPE core with a knitted polypropylene sleeve, the overall diameter is 6mm.

The Avant Story

Alexander Rose introduced the pioneering Avant Range in 2003; a Danish inspired concept using a floating design chair seat and table top, constructed in Teak slats on round tubular stainless steel frames. This twelve piece range immediately launched the company into the European limelight at the high end of the garden furniture market.

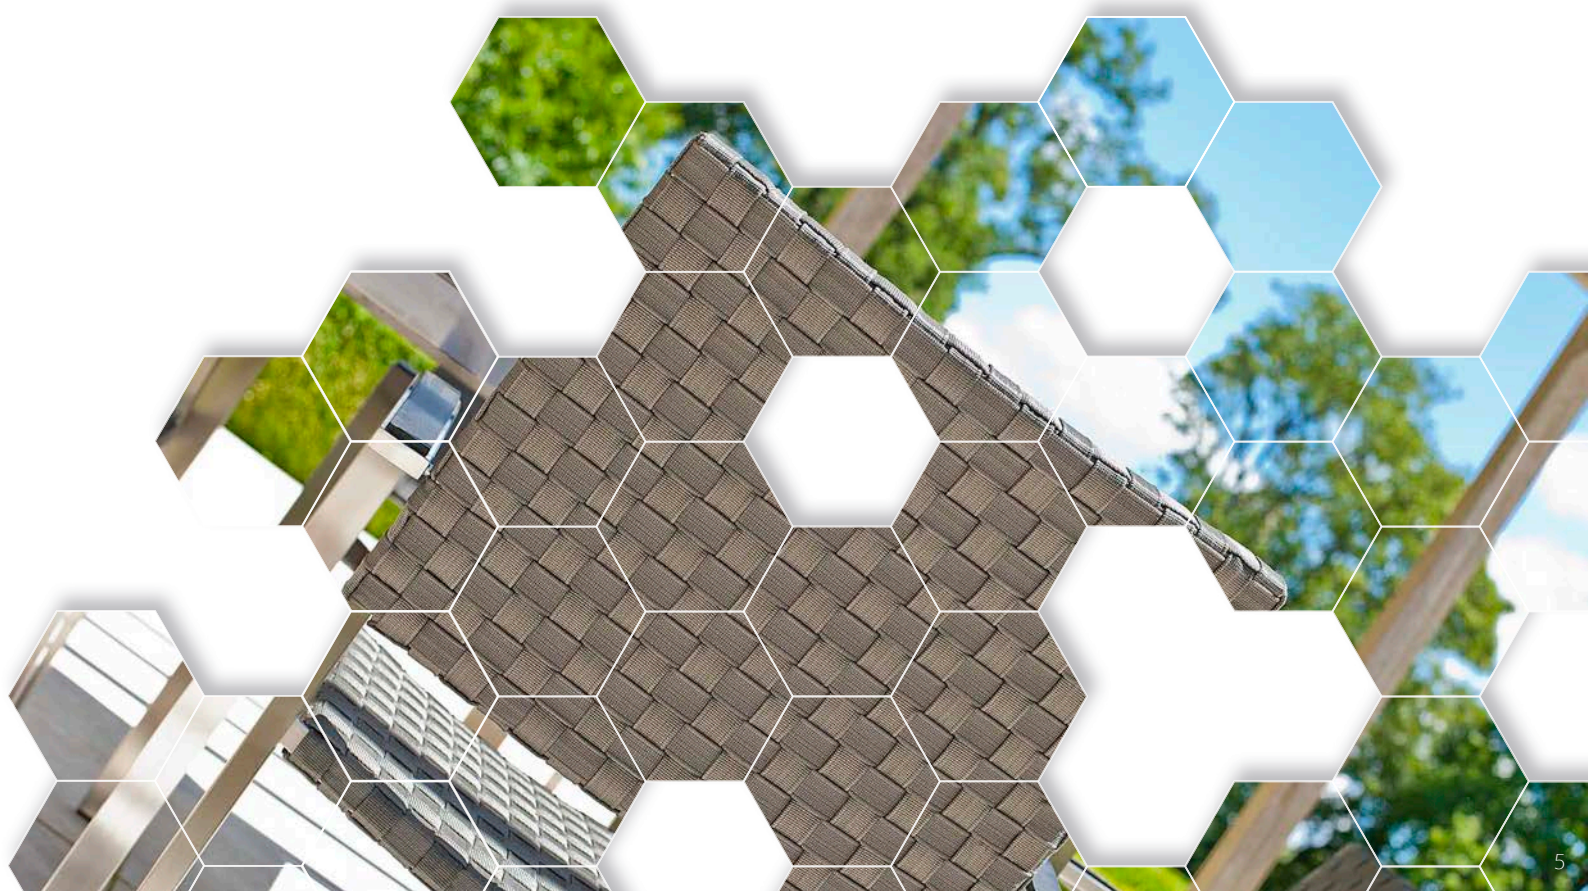

In 2005, black Rose-Sling mesh chairs and black granite table tops were introduced as an alternative to the Teak slats and “Avant Noir” was born, bringing the collection to twenty pieces.

During the following seven years, more elegant, precision furniture was designed in a variety of different materials, such as compact laminate, rattan, glass and mosaic marble, increasing the range to a commanding sixty pieces.

To acknowledge the success of this long established collection, and to mark its tenth year, we re-launched it as “Avant Classic”, since it has stood the test of time and become a favourite for many of our European customers.

In contrast to the Avant Classic with round tubular frames, we designed new Avant furniture using square section tubes with different materials consisting of wide teak slats, graphite string and webbing. This angular aesthetic suits the latest market trend, and can also be combined with Avant Classic models if desired.

We are excited about the next ten years for the Avant Classic and Avant collections, as they become the centrepiece to some of the world’s most beautiful homes.

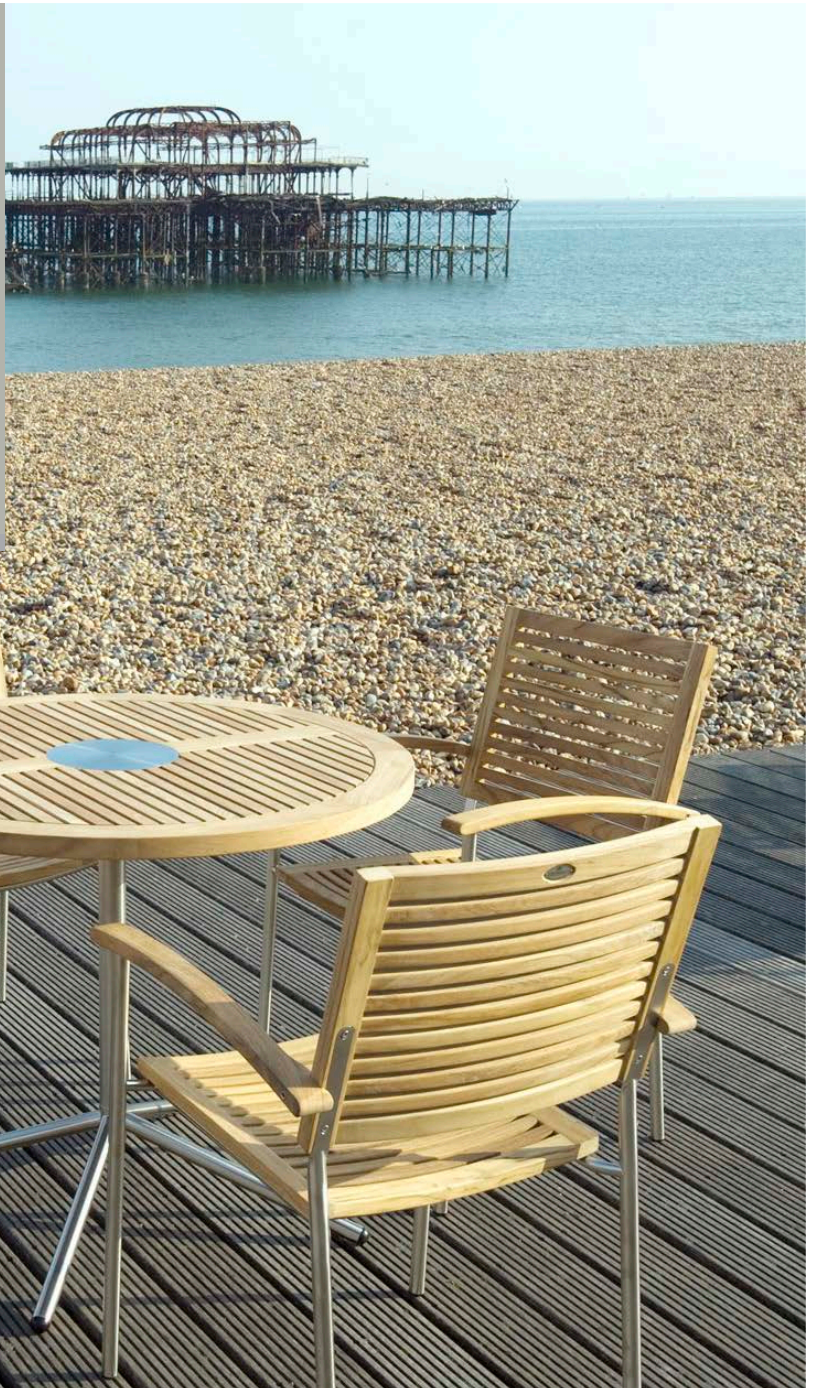

Avant Classic Collection

The precision engineered round tube frames made with Grade 304 stainless steel contain a protective film of chromium oxide which prevents surface corrosion making them ideal for outdoor use.

The Avant Classic range, incorporating the finest quality Teak with narrow slats on chairs and tables, will provide years of enjoyment and comfort with little maintenance.

Avant Collection

Refined and minimal in style, this modern precision engineered furniture commands attention and contemplation.

Inspired by 20th Century furniture design, the Avant has square tube frames and wide Teak slats. The slate effect tops stand out from the smooth finish of the stainless steel.

Accessories

Aluminium & Stainless Steel Parasols

Aluminium Parasols

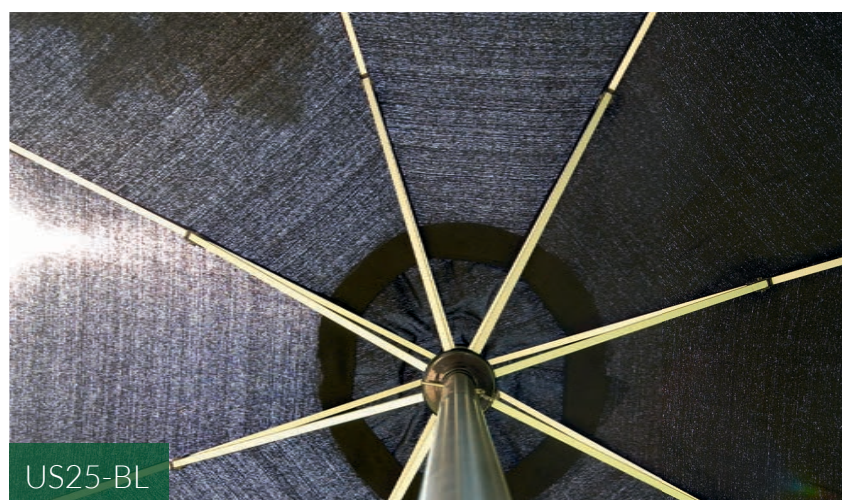

Alexander Rose aluminum parasols are easily operated with a simple crank handle. Some parasols have a tilt mechanism, allowing you to angle the canopy and provide effective shade from the sun.

Stainless Steel Parasols

Alexander Rose stainless steel parasols are operated using a pulley and locking pin system. Simply pull the rope down to raise your parasol up to the desired height, place the stainless pin in one of the pole holes to secure.

To lower the parasol remove the locking pin, slowly let the rope pass through your hands until the canopy is folded and upright. We recommend that a parasol is not left up in windy conditions, it is essential to use an Alexander Rose granite base to add stability.

Cantilever Parasol

UHP

3.0m

UHP

The UHP parasol is easy to operate with the simple handle and lock mechanism. To rotate the parasol simply unlock the handle and move into the desired position, and then lock the handle to secure. They can be easily bolted to an Alexander Rose UHGB40 granite base.

UHY

The UHY is a 16 spoke curved 3.0m cantilever parasol. As with the UHP it is easy to raise and lower the canopy with a crank handle mechanism. The canopy can be adjusted into 5 positions to give maximum shade from the sun. The parasol also has a foot operated pedal for 360° rotation. For use with the UHGB90.

Cantilever Parasol

UHY

3.0m

UH35

The UH35 parasol has a unique design, tilting to 180° covering the slightest of angles to protect everyone from the sun. The main feature as with all cantilever is the ability to spin 360° on its axis. Easy to operate with the simple crank handle, you will be shaded from the sun in seconds. They can be easily bolted to an Alexander Rose UHGB90 granite base.

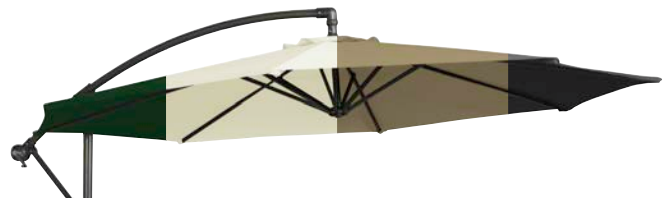

Cantilever Parasol

Taupe

Black

Cantilever Parasols

Our elegant cantilever parasols can be positioned to provide maximum shade. They appear to float above the furniture and can be manually rotated on its own axis to follow the sun. It is freestanding allowing you to position the furniture underneath, rather than around a central pole as with conventional designs. The crank mechanism enables effortless use.

The parasols are made using lightweight durable polyester fabric which is water resistant and easy to clean. To clean your parasol we advise that the fabric is kept attached to the frame, use a soft brush or broom and warm soapy water. For more stubborn stains the canopy can be removed and washed at 30°C. Once washed it is important to put the canopy back on the frame to dry.

Bases

Granite Base

GB11 - Wt 11kg
GB20 - Wt 20kg
GB30 - Wt 30kg

Granite Bases

We recommend using either a GB20 (20kg) or GB30 (30kg), however if you are using parasols inside of a table you can use the GB11 (11kg)

Cantilever Bases

The UHGB40 base is designed to be used with the UHP range of cantilever parasols.

The UHGB90 base has been designed to be used with the UHY and UH35 cantilever parasol.

Please make sure you have the correct base for your parasol.

UHGB40 has convenient small wheels, allowing the base to be moved along a flat surface easily.

UHGB90 has locking wheels to secure the parasol and prevent any movement.

Storage bags

Cushion Storage Bags

Our cushion bags come in 3 sizes, small medium & large to accommodate your set of cushions. All of our bags are weather resistant, we recommend storing the cushions in the bag in a dry place when not required.

The small cushion bag is designed for the recliner seat cushions; it will fit up to 6 cushions. It will fit the Portofino cushions as well as a number of scatter cushions.

The medium bag is designed to hold the lovers recliner cushions as well as a number scatter cushions.

The larger bag is designed to fit a large number of cushions, this includes cushions in our Lantern as well as our Ocean & San Marino Huts.

The small cushion bag is designed for furniture cushions, it will also hold several scatter cushions.

The medium cushion bag is designed for sofa sets and lovers recliners, it will fit up to 6 cushions.

Timber Care

Alexander Rose manufactures garden furniture which will last for many years. Over time, as part of the natural weathering process, cracks and splits will appear in the wood particularly on the end grain and to a lesser extent on the surface.

The drier the wood, the more cracks will appear due to the evaporation of natural oils and minerals in the wood from exposure to the elements. As with most hardwoods, this is a normal characteristic for any timber which remains outdoors.

Our timber furniture is designed with this in mind and its strength and durability will remain unaffected.

Wooden furniture can be treated with our specially formulated care products to give a beautiful rich finish and enhance the look of the wood. Alternatively it can be left to turn a mellow silver grey, and should be cleaned occasionally with soapy water.

Timber Cleaner

Cleans and brightens weathered timbers in one simple step.

Timber Protector

Nourishes and gives timber a more uniform appearance, also slows the discolouration from sunlight.

Timber Treatment

Protects the natural look of all hardwood timbers by enhancing its appearance.

Timber Sealer

Protects against weathering and reduces moisture absorption.
