COLOGNE MATERIALS

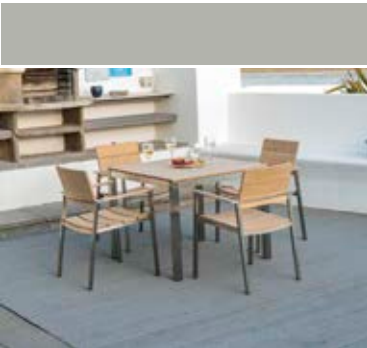

We choose from only the highest quality materials ensuring our products stay at their best through years of use.

STAINLESS STEEL	ROBLE	ROSE SLING	STRING
			
We use grade 304 stainless steel tubular sections with a high nickel and chrome content that forms chromium oxide, which prevents the furniture from corrosion. It has a 10 year warranty and a durability of up to 25 years.	A hardwood which is light yellow in colour and has a smooth lustre. It's strength is similar to Teak. It has a 10 year warranty and a durability of up to 25 years and is sourced from Bolivia. It has a 10 year warranty and a durability of up to 25 years.	Our Rose-Sling is a tough synthetic fabric made of PVC coated polyester. It has specially formulated yarns that withstand UV fading, mildew and severe weather conditions. The sling is available in Mixed Grey and Graphite. It has a 3 year warranty and a durability of up to 10 years.	The string is used on our stacking armchair. It has a 5mm diameter and has a solid HDPE core with a knitted polypropelene sleeve. It has a 3 year warranty and a durability of up to 10 years.

STOCK CERAMIC	BESPOKE CERAMIC *
 	  
The 6mm ceramic is made by wet grinding clayish raw materials, granite and ceramic pigments. It is then compacted by a special machine at 1200°C with hybrid firing. Stock colours come in Dark Grey and Ivory. It has a 10 year warranty and a durability of up to 25 years.	The 6mm ceramic is made by wet grinding clayish raw materials, granite and ceramic pigments. It is then compacted by a special machine at 1200°C with hybrid firing. Bespoke Colours come in Mid Grey, Light Grey and Stone. It has a 10 year warranty and a durability of up to 25 years.

*For Bespoke Ceramic, allow for 8 weeks from delivery of order.

THE COLOGNE STORY

Following the success of the pioneering Avant Range launched in 2003, Alexander Rose is now saying farewell after 12 glorious years, making way for the new Cologne Collection.

An inspired concept by the critically acclaimed Danish furniture designer, Povl Eskildsen, the Cologne furniture utilises rectangular stainless steel tubes in conjunction with roble timber slats, ceramic table tops and sling chairs, all beautifully complementing each other and offering a superb choice of outdoor furniture sets.

This elegant angular furniture has also been designed to integrate with our Roble Collection, giving an even wider choice by mixing stainless steel chairs with roble tables.

Precision engineered stainless steel frames with a high quality brushed finish is one of the hallmarks of this furniture. Table top options include Roble hardwood slats, crafted at our own factory in Bolivia and ceramic tops in a choice of two stock colours and three bespoke options. Chair options incorporate roble slats, stylish woven Rose-Slings in mixed grey or graphite colours, and charcoal coloured woven string for a completely unique looking chair.

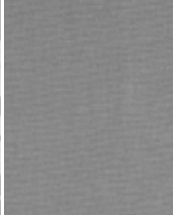

Needless to say, we are very excited about the future of this worthy successor. We know that the Cologne collection will continue on from the Avant, and contribute in creating some of the world's most beautiful homes.

PORTOFINO MATERIALS

We choose from only the highest quality materials ensuring our products stay at their best through years of use.

PORTOFINO FRAMES	WEAVE	ROSE SLING	STONE EFFECT TOP
			
Our mild steel begins with a phosphate treatment to prevent corrosion. Next is a cathodic dip where a layer of primer is evenly applied, followed by a metallic grey powder coating, resulting in a stylish finish. It has a 5 year warranty and a durability of up to 10 years.	Our Portofino weave is handcrafted in a traditional style with a two-tone 7mm flat weave. The grey fibres compliment the metallic grey frames giving it a modern feel. It has a 3 year warranty and a durability of up to 10 years.	Our Rose-Sling is a tough synthetic fabric made of PVC coated polyester. It has specially formulated yarns that withstand UV fading, mildew and severe weather conditions. It has a 3 year warranty and a durability of up to 10 years.	Our stone top is made from compact fibreglass cement, finished with a highly resilient granite effect coating, which is UV and weather resistant. It requires minimal maintenance. It has a 3 year warranty and a durability of up to 10 years.

REVERSIBLE CUSHION FABRIC	PLAIN CUSHION FABRIC	PORTOFINO LITE FRAMES
 		
The decorative grey patterned fabric is spun polyester, weight 330gsm. The plain grey fabric is 230gsm. It has a 1 year warranty and a durability of up to 3 years.	The lounge and swingseat cushions are plain grey polyester with a weight of 230gsm. We have a selection of scatter cushions in 6 colours to add a splash of colour (see page 61). It has a 1 year warranty and a durability of up to 3 years.	Aluminium extruded tubes achieve a high strength-to-weight ratio, with the result being a very strong and light weight frame. The aluminium is resistant to corrosion which makes it ideal for outdoor use. It has a 3 year warranty and a durability of up to 5 years.

THE PORTOFINO STORY

Alexander Rose introduced this outstanding furniture collection in 2012, made of wire mesh combined with tubular steel. Our objective was to design eye catching pieces of furniture that would bring a refreshing look to a new market for Alexander Rose. We found our inspiration in the curvaceous lines and ergonomic comfort of our Ocean Range; and the Portofino Range was born.

The design challenge was to transform the shapes of the Ocean furniture into the steel tube and wire mesh fused form. This was a great technical achievement, and by reproducing our own established designs in different materials, we have given the Portofino range a whole new character of its own, with its impressive diamond mesh pattern and elegant two tone cushions.

Our Portofino furniture will look great in any setting and for this 2016 catalogue we have introduced new models in the form of a swingseat and a round stone top table.

In 2014 we introduced the Portofino Lite, a collection of lightweight furniture. The frames are constructed in aluminium and powder coated in a metallic iron grey to match the Portofino models. The chair and sunbeds come in a choice of mid grey and striped blue Rose-Slings.

COLOGNE COLLECTION

10 YEAR WARRANTY

The precision engineered square & round tube frames made with Grade 304 stainless steel contain a protective film of chromium oxide which prevents surface corrosion making them ideal for outdoor use.

The Cologne range, incorporating the finest quality Roble with narrow slats on chairs and tables, will provide years of enjoyment and comfort with little maintenance.

PORTOFINO COLLECTION

5 YEAR WARRANTY

Precision is the hallmark of this collection and this is shown in the way the mesh and structure compliment each other. For this season we have designed a stunning new Swingseat & stylish coloured bistro to brighten up your garden.

The Lounge cushions are plain grey on both sides and there is a choice of 6 scatter cushions to create a splash of colour.

ACCESSORIES COLLECTION

Enhance your outdoor space with our extensive range of accessories; from colourful scatter cushions & parasols, to protective furniture covers and treatments.

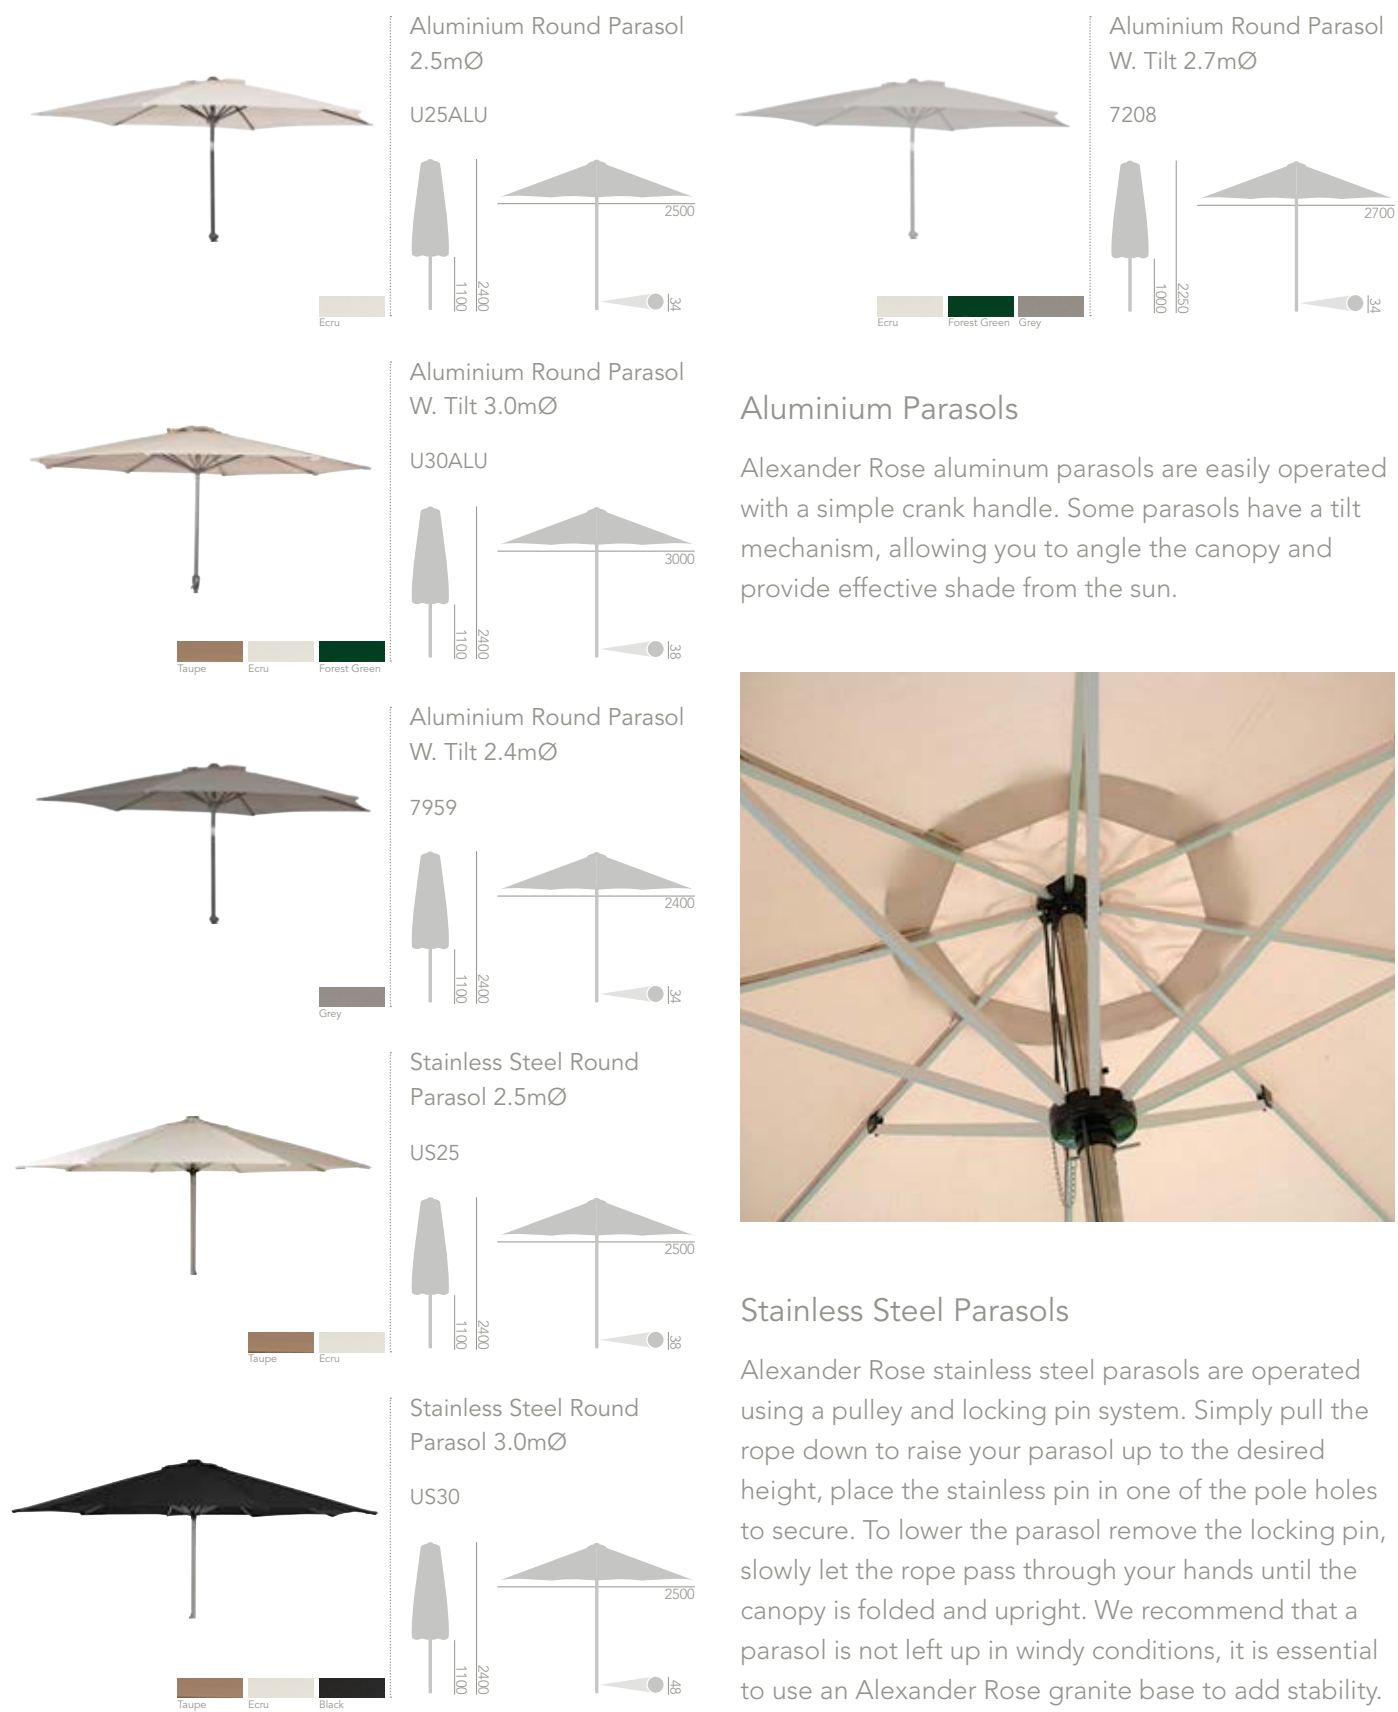

We offer a selection of weather resistant storage bags for your cushions, that we recommend you use to protect them from the elements.

For personalising your timber furniture, we offer an engraving service directly onto the timber or a choice of brass or stainless steel plaques.

STAINLESS STEEL PARASOLS

Aluminium Parasols

Alexander Rose aluminum parasols are easily operated with a simple crank handle. Some parasols have a tilt mechanism, allowing you to angle the canopy and provide effective shade from the sun.

Stainless Steel Parasols

Alexander Rose stainless steel parasols are operated using a pulley and locking pin system. Simply pull the rope down to raise your parasol up to the desired height, place the stainless pin in one of the pole holes to secure. To lower the parasol remove the locking pin, slowly let the rope pass through your hands until the canopy is folded and upright. We recommend that a parasol is not left up in windy conditions, it is essential to use an Alexander Rose granite base to add stability.

CANTILEVERS

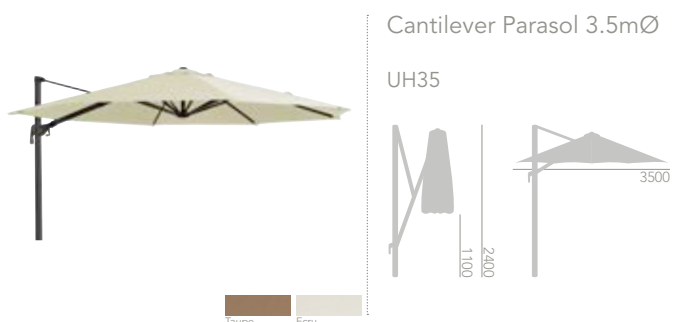

UHP

The UHP parasol is easy to operate with the simple handle and lock mechanism. To rotate the parasol simply unlock the handle and move into the desired position, and then lock the handle to secure. They can be easily bolted to an Alexander Rose UHGB40 granite base.

UHY

The UHY is a 16 spoke curved 3.0m cantilever parasol. As with the UHP it is easy to raise and lower the canopy with a crank handle mechanism. The canopy can be adjusted into 5 positions to give maximum shade from the sun. The parasol also has a foot operated pedal for 360° rotation. For use with the UHGBY granite base.

UH35

The UH35 parasol has a unique design, tilting to 180° covering the slightest of angles to protect everyone from the sun. The main feature as with all cantilever is the ability to spin 360° on its axis. Easy to operate with the simple crank handle, you will be shaded from the sun in seconds. They can be easily bolted to an Alexander Rose UHGB90 granite base.

Our elegant cantilever parasols can be positioned to provide maximum shade. They appear to float above the furniture and can be manually rotated on its own axis to follow the sun. It is freestanding allowing you to position the furniture underneath, rather than around a central pole as with conventional designs. The crank mechanism enables effortless use.

The parasols are made using lightweight durable polyester fabric which is water resistant and easy to clean. To clean your parasol we advise that the fabric is kept attached to the frame, use a soft brush or broom and warm soapy water. For more stubborn stains the canopy can be removed and washed at 30°C. Once washed it is important to put the canopy back on the frame to dry.

BASES

Granite Base

GB11	11kg
H	30
W/D	380
GB20	20kg
H	38
W/D	430
GB30	30kg
H	45
W/D	500

Granite Bases

We recommend using either a GB20 (20kg) or GB30 (30kg), however if you are using parasols inside of a table you can use the GB11 (11kg).

Granite Bases

The composite base is for use with parasols being used through the middle of a table

Composite Base

Portofino Reversible Cushions

Our contemporary Portofino cushions are reversible, allowing you to choose from a decorative grey pattern or a stylish solid grey. The cushions are made from polyester with a comfortable foam filling. They are secured using the ties located on the corners of the cushion. We advise you remove the cushions when not in use, these can be stored in an Alexander Rose cushion bag.

Cushion Cleaning Tips

1. Brush off any loose dirt.
2. Prepare a cleaning solution of 1:16 mild detergent to lukewarm water.
3. Use a sponge or a soft bristle brush to clean.
4. Allow cleaning solution to soak into the fabric.
5. Rinse thoroughly to remove all soap residue.
6. Allow fabric to air dry.

Gazebos

Our two Gazebos use 250gsm polyester fabric for the roof and 180gsm polyester fabric for the curtains, both pieces of fabric are in Ecu. The frame is constructed in alumium and is powder coated to prevent corrosion, which makes it perfect for outdoor use.

Timber Care

Alexander Rose manufactures garden furniture which will last for many years. Over time, as part of the natural weathering process, cracks and splits will appear in the wood particularly on the end grain and to a lesser extent on the surface. The drier the wood, the more cracks will appear due to the evaporation of natural oils and minerals in the wood from exposure to the elements. As with most hardwoods, this is a normal characteristic for any timber which remains outdoors. Our timber furniture is designed with this in mind and its strength and durability will remain unaffected.

Wooden furniture can be treated with our specially formulated care products to give a beautiful rich finish and enhance the look of the wood. Alternatively it can be left to turn a mellow silver grey, and should be cleaned occasionally with soapy water.

Timber Cleaner - Cleans and brightens weathered timbers.

Timber Protector - Nourishes and gives a more uniform appearance, also slows the discolouration from sunlight.

Timber Treatment - Protects the natural look of all hardwood timbers by enhancing its appearance.

Timber Sealer - Protects against weathering and reduces moisture absorption.

PORTOFINO TECHNICAL INFO

Steps

1. Starts with a cleaning and phosphate treatment.
2. Cathodic dip layer
3. First round of heat curing/ baking
4. Powder primer application
5. Second heat curing/ baking
6. Protective powder coating application
7. Drying and curing
8. Cool down

The Process

The Alexander Rose Portofino range is built from mild steel, treated with two layers of powder coating for a smooth and metallic finish. Our Portofino range has one layer of rust protection, a layer of primer and two layers of powder coating treatment. All these treatments result in a silver grey finish that is weather resistant. Powder coating the frames twice provides an effective layer of skin for the furniture, protecting it against small scratches.

Portofino frames and cushions require minimal maintenance, and can be cleaned with a damp cloth and mild detergent. Do not use abrasive cleaners or bleach.

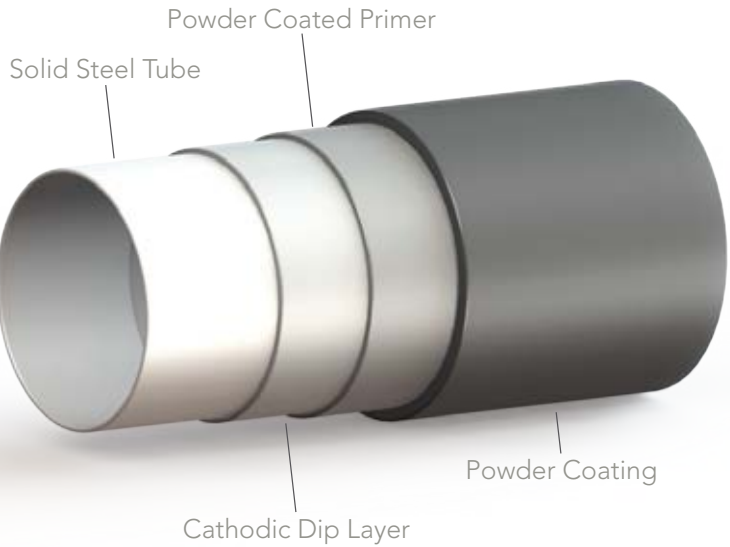

Powder Coating

A cathodic dip coating is followed by a powder coated primer and a protective powder coating which determines the colour. A combined coating thickness of 0.25mm giving in comparison to an industry standard powder coating, which has a thickness of only 0.08mm - 0.12mm.

Maintenance

- Clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- It is recommended that you occasionally check all of the fixings are tightened, as loose screws can cause damage to the table legs.
